

**Remarks**

The above amendments and these remarks are responsive to the Office action dated April 10, 2006. Prior to entry of this response, claims 1-23 were pending in the application. In the Office action, claims 1-4, 6-11, 13-14, 16-18, and 20-23 are rejected under 35 USC 102(e) as being anticipated by McKay et al. (US Appl. Pub. No. 2003/0131820); and claims 5, 12, 15, and 19 are indicated to be allowable if rewritten in independent form. In view of the remarks below, Applicants respectfully request reconsideration of the application and allowance of the pending claims.

**Rejections under 35 USC § 102**

Applicants respectfully traverse the 35 USC 102(e) rejections set forth in the April 10, 2006 Official action. However, independent claims 8 and 20 are hereby amended to recite valve control that is based, at least in part, on a modal frequency of a vehicle chassis or a vehicle mechanical component. Applicants have reviewed McKay et al. and can find no disclosure of any adjustment of the valves based on a modal frequency of a vehicle chassis and/or a vehicle mechanical component. As such, Applicants respectfully request the rejection of claims 8 and 20 be withdrawn. Further, claims 1 and 13 are amended to incorporate subject matter of claims 5 and 19, respectively, and claims 5 and 19 are cancelled. Finally, claim 23 has been amended to include subject matter similar to that of the above allowed claims.
